1. Installation Guide

1. Move your downloaded pack folder to a memorable location (we recommend creating a dedicated folder for samples on your Hard Drive).
2. Import any of the WAV loops into your DAW, which is usually possible by dragging files and dropping them onto empty tracks or by selecting 'Import' from the 'File' menu. Please refer to your DAW's documentation for further information.

That's it! Further installation assistance can be found in our [support section](#) and tips and tricks can be found in our [magazine](#).

2. Technical Info

- WAVE (.wav) format for the loops and samples
- 44.1kHz (sample rate)
- 24bit (bit depth)

4. Contact / Support

If you have any problems with using this pack at all then please don't hesitate to get in touch. Either fill in our [contact form](#), or send an email to the following address:

support@modeaudio.com

Include as much information about the issue as you can - screenshots are usually very helpful. We'll almost certainly need to know which OS (e.g. Mac or Windows) you use and which DAW/piece of software you want to use the sounds with.

If you want to stay up to date with all things ModeAudio, you can sign up to our [newsletter](#) to receive free sounds, tips, news and more.

Thanks again, we hope you enjoy using the sounds as much as we enjoyed making them - come back soon!
